## Action Consensus

Please read our action consensus before you plan your action. You can find the action consensus on our website.

## How To Send Material

### 1. Taking Pictures:

- For social media, it is best to film in portrait format
- Think carefully about what you want to film and use disguise/ non-everyday clothing from the Freeshop so that less has to be made unrecognizable afterwards
- Film different motifs: preparations, actions, surroundings

### 2. Editing Pictures

- Cut what no one should ever see
- Make people, shoes and other clearly recognizable features unrecognizable (e.g. pixelate)
- Important: remove metadata
- Then format/shred the data carrier

## 3. Sending Material

- Send the pictures and a short description of the action via Signal or encrypted by e-mail
- The collective assumes that material sent in this way may be published on its own communication channels such as Telegram, Instagram, Pixelfed and Co. without further processing
- if there are any comments in this regard, please send them explicitly with the pictures.

## Slogans

If you are still looking for inspiration for **banner inscriptions** etc. – here are some ideas (mostly in German):

This is nature defending itself / Wir sind die Natur, die sich verteidigt

Gegen den Landraub der Autoindustrie – für eine Welt der Allmende

Blumen statt Beton, Wald statt Asphalt

Allmende statt Autobahn

Wird Natur und Land asphaltiert, ist Widerstand legitimiert

Krieg dem Wasser, uns, dem Land – unsere Antwort: Widerstand

Mobilität für alle statt Highway to Hell

Nieder mit dem CARpitalismus

Burn, Tesla (Porsche, ...), burn!

However, **support can be requested in advance**. The collective decides on the request according to its own possibilities. Feel free to contact us via Signal or encrypted e-mail.
